*Manufacturers of Ultra Fine
Extruded Bonding Wire & Ribbon*

Procedure for Storing Wire / Ribbon

Correct Handling/Storage Method

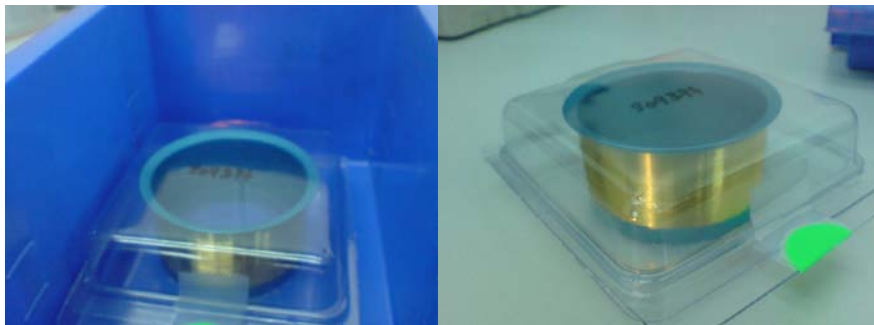

All wires should be stored in a vertical position sitting on its circumference as shown. Empty clam shell can be used as spaces if required.

Note :-

The spools should **NOT** be shaken or dropped at all time.

Incorrect Handling/Storage Method

Note :-

Such position will risk pitching drift and possible overlapping.

Note :-

Dropping or shaking will risk pitching drift and possible overlapping.
